LIVING CORAL

Coral burst on the scene in fall of 2018. This warm, playful and joyful color is being used in decor, fashion, stationery, and in wedding flowers. Living Coral is either being utilized as the main color for a bright and fun look or as accent color in a neutral look. Either way it is a beautiful color for any occasion.

BANQUET TABLES

Swapping round tables for long table is so trendy with small intimate weddings. Not only do your guests get to see everyone at once. It also allows for long and low gorgeous greenery runners accented with flowers and candles.

Bring the guests together all the while using less servers. Beautiful tables set with bites of cheeses, fruits, meats, vegetables and so much more.

GRAZING TABLES

PAMPAS GRASS

Another way to "bring in" the outdoors, upgrade the bohemian chic look and have feathery neutral decor. Pampas grass in being used for arches, aisles accents, and centerpieces.
